

Project Title: AgroBazaar

(By SEMESTER-V of III Year M.Sc.(CA&IT) 2020-21)

Submitted By:

Student Name : Roll no.

1.Nair Abhijit Sathikumar : 3023

2.Ramanuj Piyush Rajeshbhai : 3058

Group ID: -15

Name of Company: e-Seller Hub Pvt. Ltd.

Date of submission: 05/01/2021

Submitted To

K.S. School of Business Management

M.Sc.- Computer Applications and Information Technology.

Certificate from Company: -

Certificate for Project Completion: -

www.esellerhub.com

TO WHOMSOEVER IT MAY CONCERN

This is to certified that NAIR ABHIJIT SATHIKUMAR student of third year M.sc IT K.S school of business management , Gujarat University has successfully completed software Project development training in E-SELLER HUB . He worked on AGRO BAZAAR - python programming - D Django Framework From October 2020 to APRIL 2021 of your internship training . This is an original work and this work has not been submitted anywhere in any form.

We found him sincere , hardworking , technically sound and result oriented. We take this opportunity to thank him and wish him all the best for his Future.

ACKNOWLEDGEMENT

We are very thankful to everyone who supported us for this Project and gave their guidance to computer and thesis work effectively and moreover on time.

We are equally grateful to our faculty Mr. Hitesh Parmar, who gave us moral support and guided us in different matters and solutions regarding the topic.

We feel immensely proud in extending our heartiest thanks to Mr. JayrajPandya, Director of K.S. School of Business Management, for providing us a platform to improve in various fields. They have been a source of inspiration for us and their experience and knowledge have helped us in learning and giving this project the shape it has assumed.

With Regards:

Abhijit Nair (3023)

Piyush Ramanuj (3058)

Chapter 1: - Introduction

Currently we are developing a web application called “**Agro Bazaar**” using Python. Let’s try to understand, how it will actually work.

1.1 Organization Profile:

Company Name : e-Seller Hub Pvt. Ltd.

Company Address : 2nd Floor, Gujarat Bhavan,
Opp M.J Library,
Ellisbridge, Ashram Road,
Ahmedabad, Gujarat 380006.

E-mail : contact@esellerhub.com

Mobile : 9913723287

- “e-SellerHub is one of the leading and experienced Online Marketplace Management Services provider company which offers Amazon, Flipkart, eBay SEO Services to increase your online sales and business”.
- We specialize in developing an inventory management software that also has enough support for warehouse management. Something that is tailor made for every online retailer’s business needs. In other words, e-SellerHub is an amalgamation of an excellent multi-marketplace inventory management software that empowers online retailers to grow their online business.
- There is a very simple philosophy that we believe is at the core of e-SellerHub. Every online selling business is different and what may work for you may not work for someone else. So, having a perfect fit is all the more important. Also, important is your satisfaction, which we promise is and will always be at the heart of how we conduct our business.

1.2 System Details:

1.2.1 Existing System:

There is an existing system called “**FERTIBERIA**”. In this system there is only fertilizer available for farmers. It is only limited to fertilizers. There is no more information related to agriculture for farmers. Farmers have to go to the offline store for other agriculture products. Which takes time and money for them. The look and feel of this website is also not that appealing. Farmers have to struggle to find other information regarding agriculture.

1.2.2 Proposed System:

In our system we will provide agricultural products for farmers at a very reasonable price. We will have a general package for them. This general package will consist of all basic products like seeds, fertilizers, and growth promoters. We also provide agriculture machineries, seeds, fertilizers, bio fertilizers, pesticide, bio stimulants, sprayers and other agro implements. In our system we will provide seasonal products suggestions which will help them to grow their crops easy and fast. This will also help them to grow the right crop for the right season and help them to earn money accordingly. In our system we will also have filter system to search products in basis of price, reviews and discounts. We will also provide information about how to use each and every product.

1.3 Scope of System:

The Buying of products is very time consuming in offline. There are not much variety available on stores. The availability of the products is also not consistent. The cost of the products is very high and does not justify the quality of the products.

So in order to tackle these problems our system is available. Using our system farmers can easily buy products from anywhere and it will be delivered to them. It is very easy to use and convenient for them. As we deliver products straight from the companies there is no middle man so the price of the products becomes reasonable to farmers. There will be also wide variety of products available to them which they can choose and buy. In our system there is search filters also, which will help them to reach to the right product. Our system will also help them about information regarding the use of agricultural products.

All this will help farmers to grow on their agriculture journey. These will save a lot of time and money. If farmers are facing any issue than they can also contact us. There will be different sales and offers as per the season which will help farmers to save even more money.

1.4 Objectives:

The main objective of this system is to make the long and time consuming buying process much easier, time saving and faster for farmers. Farmers can buy any product and pay the money online.

Chapter: - 2 Proposed System Requirement Gathering

2.1 Stakeholder of System:

In this system, there are mainly **two** Stakeholders.

Admin:

Admin handle all the stock of medicines, manures, seeds, tools, machineries, etc. He will complete the orders of farmers.

- Login.
- Handle login details.
- Handle the category/subcategory for products.
- Handle the products details.
- Handle the farmer's details.
- Handle the details of products that ordered by farmers.
- Handle the annual reports of products.
- Handle the advertisement details.

Farmer:

Farmer will gave their desired orders. Two options for delivery are available home delivery or at the place of store.

- Sign up and sign in.
- Get information.
- Place the order.
- Delete the order.
- Pay cost for package.
- Handle the profile details.
- Search products with cost.
- Buy products and plants.
- Upload advertisement details

2.2 Requirement Gathering Technique Used:

A database developer normally uses several fact-finding techniques during a single database project including:

- Examining documentation
- Interviewing
- Observing the organization in operation
- Research
- Questionnaires

In Requirement gathering we use Different type of Fact-Finding Techniques like interview observation etc.

Conducting interview, we get Following Questions and Answers:

Q - Why you want to buy agricultural products online?

A - Because in offline there is wastage of time. The price of the products is also high. For better convenience, wide variety of products, at reasonable price and easy to use. We prefer to use an online system where all of these are available.

Q - What was problem in current system?

A - In current system there is only fertilizer available. It has limited information regarding agriculture and products. We are not able to buy other agricultural products which will help us.

Q - What are the Functionalities you want in your proposed system?

A - We want to a system where we can buy anything related to agriculture. A system where we can get information of how to use those products and how can we get better in agriculture.

Q - What kind of agricultural products do you want in your proposed system?

A - We want products like Seeds, Fertilisers, Agriculture Machinery, Herbicide, Fungicide, Insecticide, Growth Promoters, Bio Protection, etc.

Q - Describe the appearance of the system.

A - Any farmer must be able to view his profile. He must be able to search any product and buy them. There must be different payment methods. Information must be provided as per the products respectively.

Q - What kind of actions do you want in your proposed system?

A - Any farmer must be able to view his profile. He must be able to search any product and buy them. There must be different payment methods. Information must be provided as per the products respectively.

2.3 Consolidated List of Requirement:

Tasks for Administration:

- Login.
- Handle login details.
- Handle the category/subcategory for products.
- Handle the products details
- Handle the farmer's details.
- Handle the details of products that ordered by farmers.
- Handle the annual reports of products.
- Handle the advertisement details.

Tasks for Farmer:

- Sign up and sign in.
- Get information.
- Place the order.
- Delete the order.
- Pay cost for package.
- Handle the profile details.
- Search products with cost.
- Buy products and plants.
- Upload advertisement details

2.4 Project Definition:

Agro bazaar is python based web application. This is a system where farmers can buy seeds, fertilisers, agriculture machinery, herbicide, fungicide, insecticide, growth promoters, bio protection, etc. Farmers will also get suggestions of crops and fertilizers to use according to the season. So that they can take the benefit of the seasons. Our system will also provide information regarding the usage of products. Our system simplifies the problem of famers of getting products related to farming very easily.

Chapter 3: - System Management and Planning

3.1 Feasibility Study:

The main objective of the feasibility study is to test the Technical, Operational and Economical feasibility for adding new modules and debugging old running system. There are aspects in the feasibility study portion of the preliminary investigation.

- Technical Feasibility
- Operation Feasibility
- Economic Feasibility

3.1.1 Technical Feasibility:

- The technical feasibility study focuses on how you will get delivered a product or service using technology.
- The current system developed is technically feasible.
- It is a web based user interface. Thus it provides an easy access to the users.
- To access the system, internet connectivity is must require, because it is web Based website.

3.1.2 Economical Feasibility:

- Economic feasibility is based on cost and be benefits.
- The cost of hardware and software for the class of application being considered.
- The benefits in the form of reduced costs of fewer costly errors.
- The cost if nothing changes (i.e. the proposed system is not developed).
- We are using the open source platform to build our system.
- Thus, the project is economically feasible for both client and us.

3.1.3 Operational Feasibility:

- Operational feasibility states how the requirements are satisfied and also provides possible solutions.
- By doing so there is no need for the company either to recruit some special individual to run the system or spend a huge amount to train some individual.
- Thus, the project is operationally individual.
- This project well-planned design would ensure the optimal utilization of the resources and would help in the improvement of performance status.

3.2 Hardware - Software Requirement:

- **Hardware Requirement:**

- ✓ Processor: Minimum Pentium
- ✓ Hard Disk: 80 GB
- ✓ RAM: 4 GB or More
- ✓ An Internet Connection

- **Software Requirement:**

- ✓ Windows XP,7,8,8.1,10 or any higher versions of OS
- ✓ My SQL
- ✓ Any Web Browser

- **Technology Used:**

- ✓ **Frontend Technology:**

- Java Script
- HTML
- CSS
- Bootstrap

- ✓ **Frontend Tools:**

- Sublime Text

- ✓ **Backend Technology:**

- Python

- ✓ **Backend Framework:**

- Django

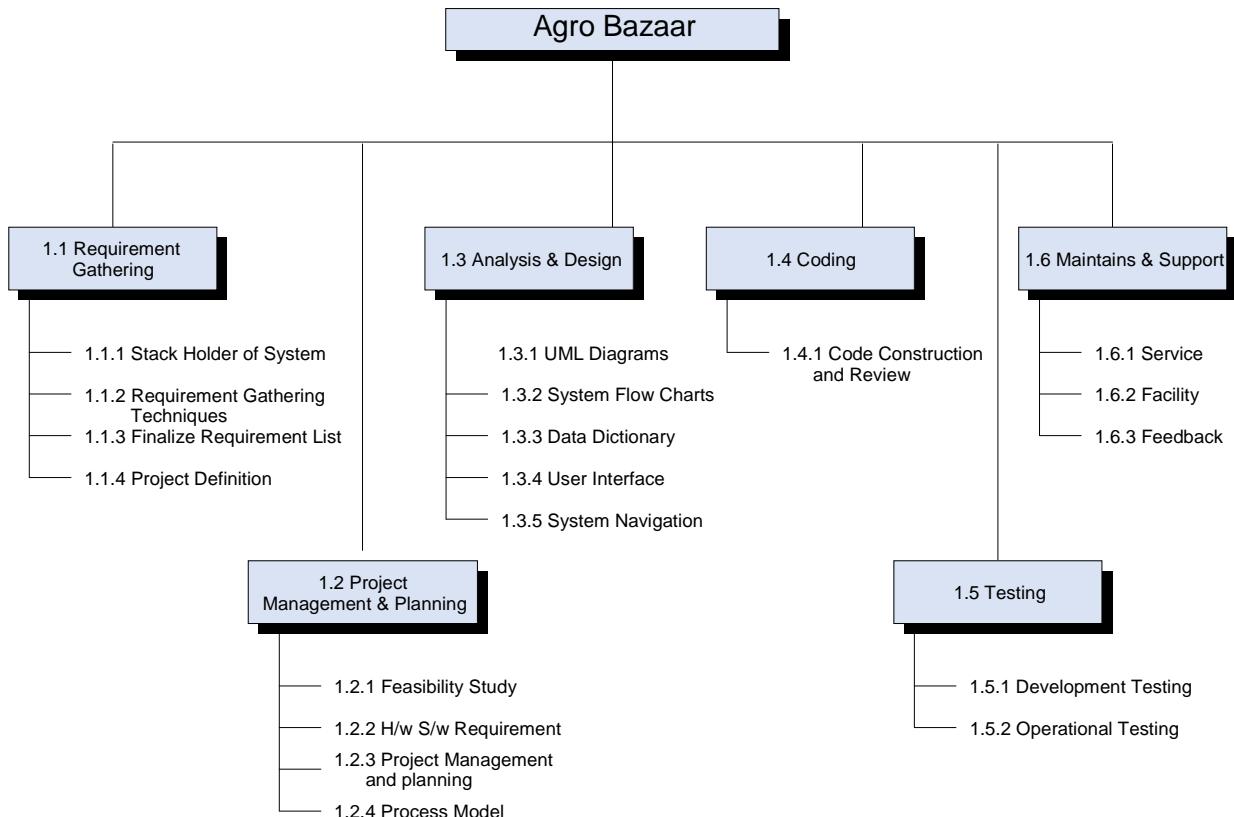

3.3 System Planning:

3.3.1 Work Breakdown Structure:

❖ What is a work breakdown structure?

- Simply put, a work breakdown structure is a hierarchical decomposition of the scope/work that needs to be estimated and executed during the course of the project in order to accomplish the project objectives and deliverables.

WORK BREAKDOWN STRUCTURE

3.3.2 Gantt Chart:

❖ What is a Gantt Chart?

- A Gantt chart, commonly used in project management, is one of the most popular and useful ways of showing activities (tasks or events) displayed against time. On the left of the chart is a list of the activities and along the top is a suitable time scale. Each activity is represented by a bar; the position and length of the bar reflects the start date, duration and end date of the activity. This allows you to see at a glance:
 - What the various activities are.
 - When each activity begins and ends.
 - How long each activity is scheduled to last?
 - Where activities overlap with other activities, and by how much.
 - The start and end date of the whole project

GANTT CHART

Sr No.	Task Name	2020 – 2021											
		Duration	July	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	April	
1	Requirement Gathering & Analysis	2 Month											
2	Feasibility Study	1.5 Month											
3	System Design	1 Month											
4	Database Design	2 Month											
5	Development [Coding]	2.5 Month											
6	Integration [Cohesion-Coupling]	1 Month											
7	Testing & Presentation	1 Month											

3.4 Process Model:

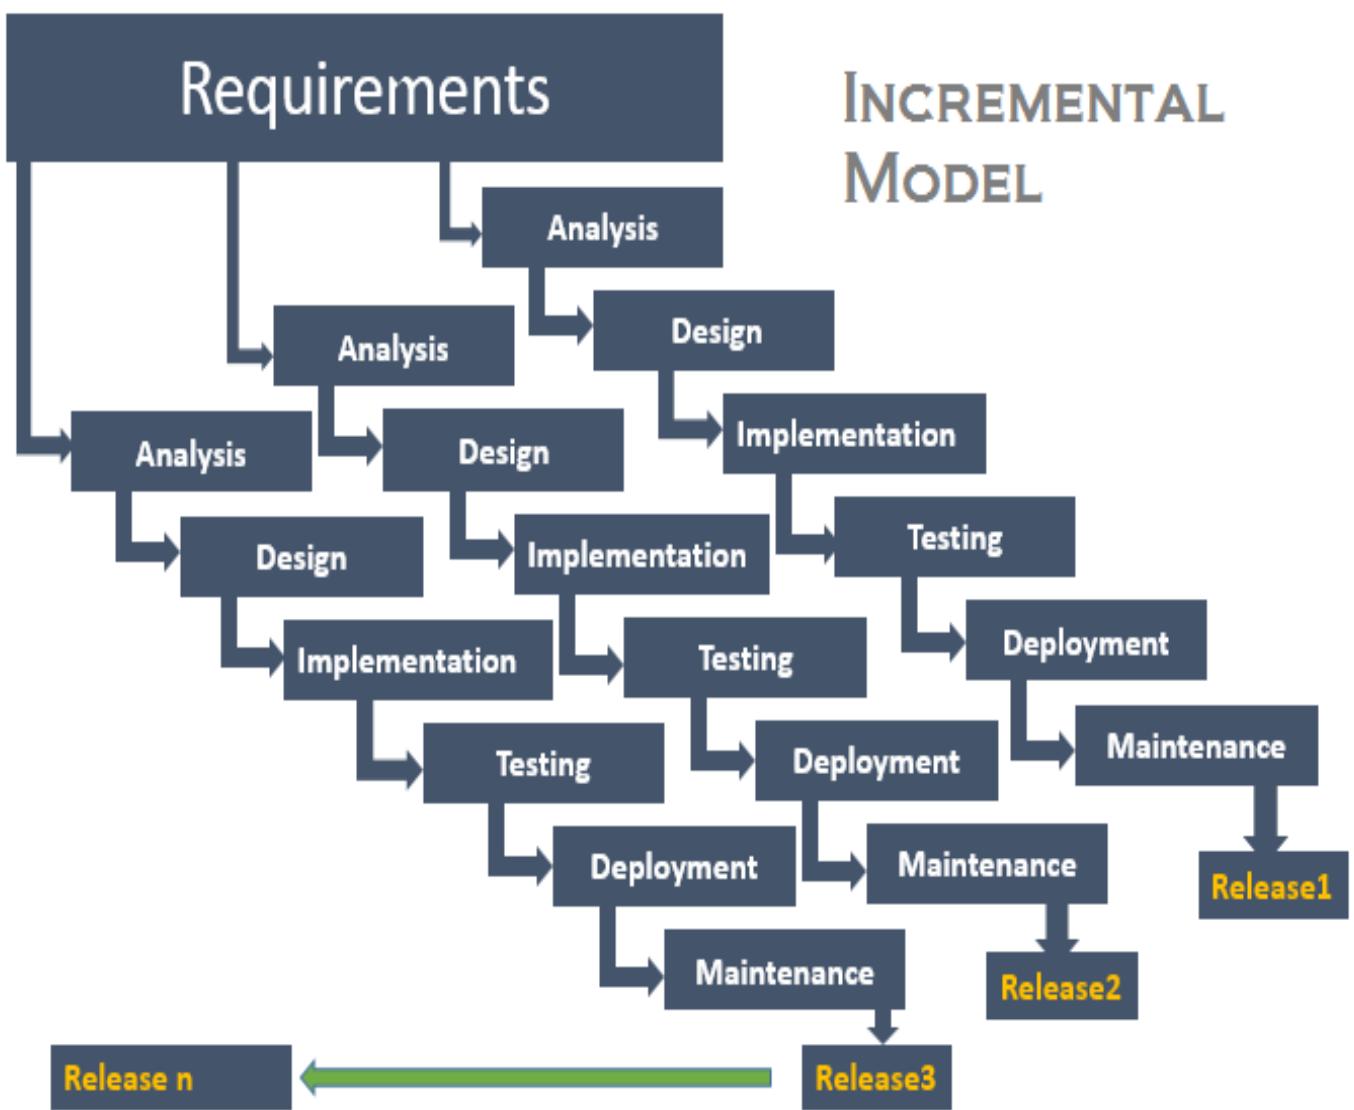

The process model is a core diagram in structured analysis and design. Each process Transforms inputs into outputs in order to complete our project in total of ten months' duration, what we should do exactly is following the analysis, design, and implementation and testing parts one by one and in each one of these parts returning the previous ones and do some modifications where necessary. What we need is definitely the characteristics of the incremental model.

❖ Incremental Model:

- The incremental model combines elements of the linear sequential model (applied Repetitively), with the iterative philosophy of prototyping. Incremental Model is combination of one or more Waterfall Models. In Incremental Model, Project requirements are divided into multiple modules and each module is developed separately. Finally developed modules are integrated with other modules. During development of each module, waterfall model is followed for each module development separately and passes through the requirements, design, implementation and testing phases.
- The series of releases is referred to as “increments”, with each increment providing more Functionality to the customers. After the first increment, a core product is delivered, which can already be used by the customer. Based on customer feedback, a plan is developed for the next increments, and modifications are made accordingly and this process continues until product is delivered.
- Early increments can be implemented with fewer people. If core product is well received, then additional staff can be added to implement the next increment.

- We increment earlier to the main increment are called as “stripped down” versions of the final product. If there are less number of employees to work on the project Incremental development model is very useful to complete the project before the deadline. In a project early increments can be done with less number of people. In case if the core product is well-defined and understood more employees can be added if needed in the future increments.
 - One of the benefits of Incremental process model is that it can be planned to manage technical risks.

INCREMENTAL MODEL

❖ **Steps:**

These tasks are common to all the models:

1. Communication:

- Helps to understand the objective.

2. Planning:

- Required as many people (software teams) work on the same project but different function at same time.

3. Modelling:

- Involves Analysis and Design.

4. Construction:

- This involves the implementation (coding) & testing.

5. Deployment:

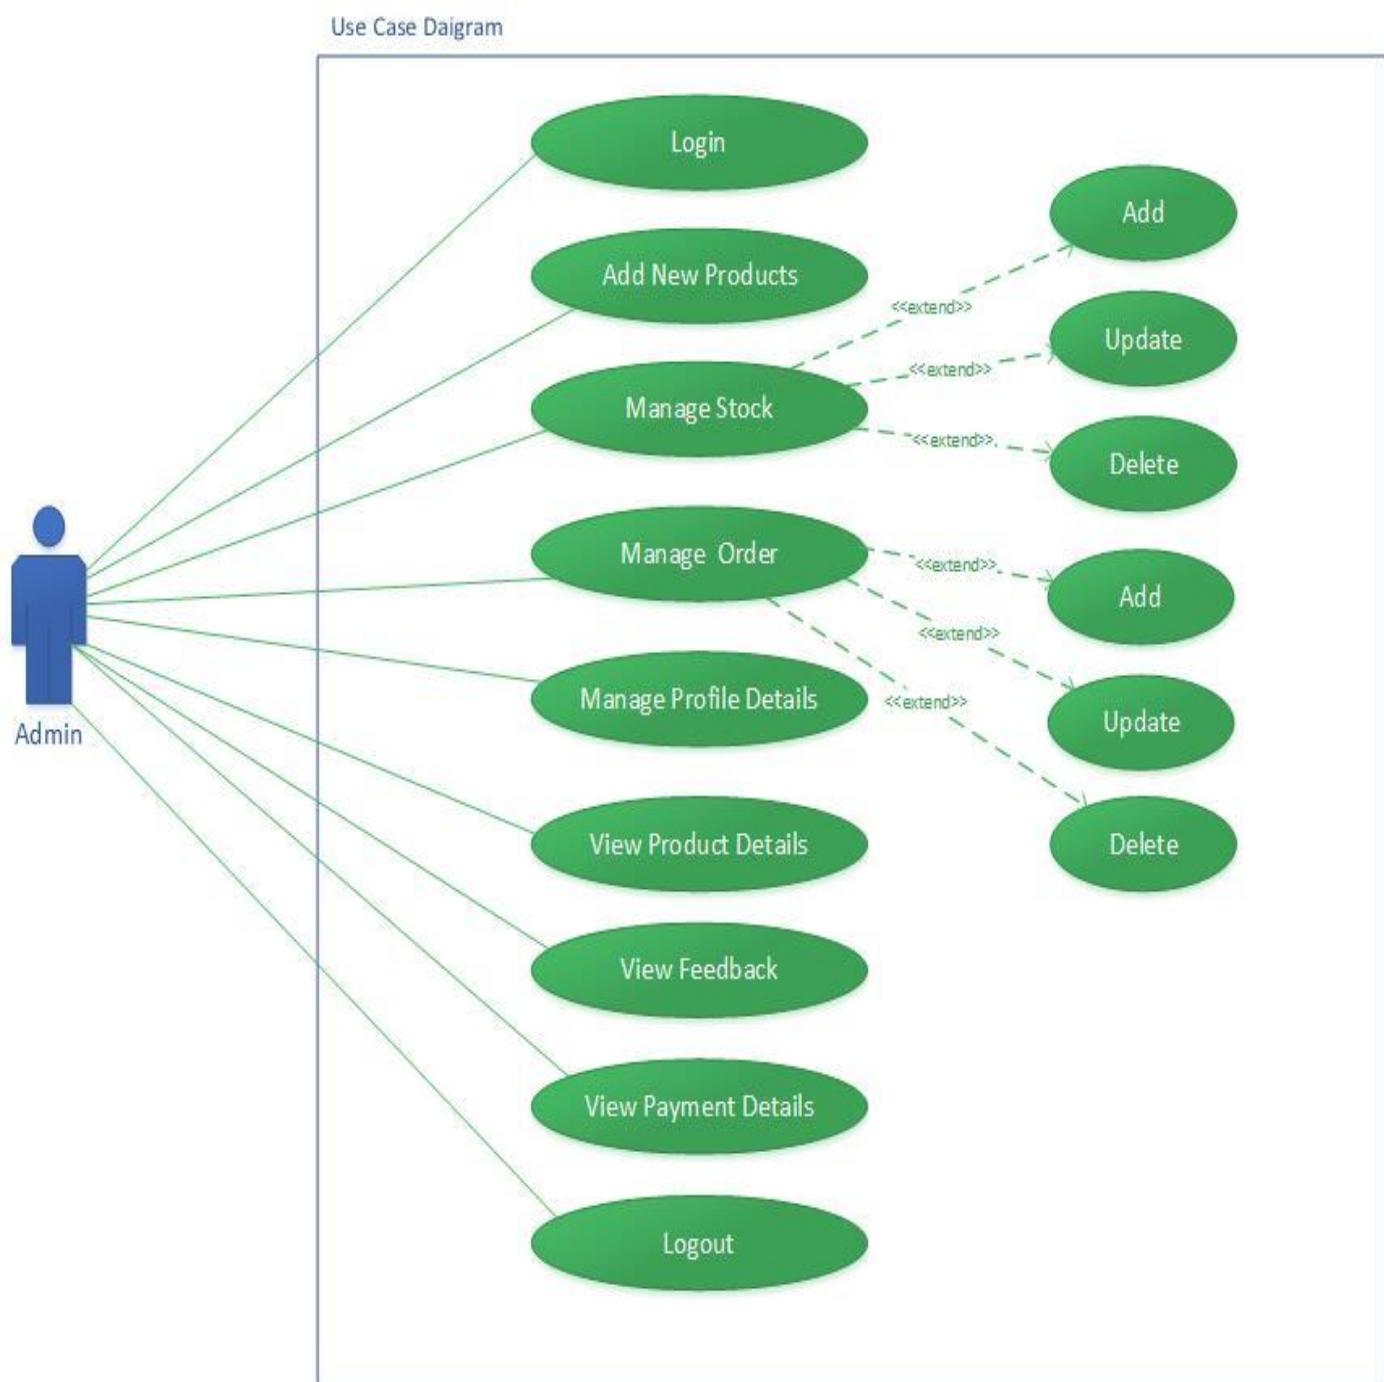

- Integration of all the increments.

4.4 User Interface:

- Home Page: -

The screenshot shows the homepage of Agro Bazaar. At the top, there is a header bar with a 'Home Page' button, a search bar containing 'https://www.agrobazaar.com', and three circular icons. Below the header is the Agro Bazaar logo and navigation links for 'Login', 'Sign up', and 'Contact Us'. A search bar with a magnifying glass icon and a shopping cart icon are also present. A dropdown menu for 'All Categories' is shown. The main content area features a large 'Slider' placeholder, followed by a 'Products' section with five placeholder boxes. At the bottom, there are two columns: 'Categories' (Fertilizers, Seeds, Crops) and 'Quick Links' (About Us, Contact Us, Faqs).

Choose File No file chosen

Buttons: SIGN UP, Already have an account? [Login](#)

The browser's address bar shows 'localhost:8000/signin/'. The taskbar at the bottom includes icons for File Explorer, Mail, and Google Chrome, along with system status indicators like battery level and network connection.

The screenshot shows a web browser window with the URL localhost:8000/signin/. The page title is "AGROBAZAAR". At the top, there is a navigation bar with links for HOME, CATEGORIES, MAIN MENU, BLOG, LOGIN, and SIGNUP. A search bar is also present. Below the navigation, a large central box contains the text "AVIATO" and "OTP VERIFICATION". Inside this box, there is a text input field containing "3183" and a "VERIFY" button below it. At the bottom of the page, there is a footer with social media icons (Facebook, Google+, Twitter, LinkedIn) and links for CONTACT US, ABOUT US, and FAQ. The status bar at the bottom of the screen shows system information like battery level, signal strength, and the date/time (4/10/2021, 4:39 AM).

The screenshot shows a web browser window with the URL localhost:8000/validate_otp/. The page title is "AGROBAZAAR". The navigation bar and search bar are identical to the previous screenshot. The main content area displays the text "AGROBAZAAR" and "WELCOME BACK". Below this, there are two input fields: the first contains the email address "abhitnair2470@gmail.com" and the second contains the password "....". A "LOGIN" button is positioned below these fields. At the bottom of the page, there are links for "New in this site? Create New Account" and "Forgot your password?". The status bar at the bottom of the screen shows system information like battery level, signal strength, and the date/time (4/10/2021, 4:40 AM).

The screenshot shows a web browser window with three tabs open: 'AgroBazaar', 'view-source:localhost:8000/signin', and 'Select user to change | AGRO BAZAAR'. The main content area displays the 'AGROBAZAAR' logo at the top, followed by a navigation bar with links for 'HOME', 'CATEGORIES', 'MAIN MENU', 'BLOG', 'WELCOME, ABHIJIT', 'LOGOUT', 'MY WISHLIST (3)', and 'CHANGE PASSWORD'. Below this is a large form titled 'CHANGE PASSWORD' containing three input fields, each with three dots (...), and a 'CHANGE PASSWORD' button.

The screenshot shows a web browser window with three tabs open: 'AgroBazaar', 'view-source:localhost:8000/signin', and 'Select user to change | AGRO BAZAAR'. The main content area features a large advertisement for 'Nutri+' fertilizer. The ad includes the text 'Nutri+' and 'Enriched With Micronutrients', followed by a bulleted list of benefits: 'Improves soil structure & porosity.', 'Allows water & nutrients to penetrate into the root system.', 'Helps in reclaiming the alkaline soil', 'Can be easily broadcasted in the field', and 'Can be applied at any stage of farming'. The background of the ad shows a stylized illustration of a soil cross-section and a fertilizer bag.

The screenshot shows the homepage of the AgroBazaar website. At the top, there's a navigation bar with links for 'HOME', 'CATEGORIES', 'MAIN MENU', 'BLOG', 'WELCOME, ABHIJIT', 'LOGOUT', 'MY WISHLIST (3)', and 'CHANGE PASSWORD'. A search bar labeled 'SEARCH' and a 'MY CART (3)' button are also present. The main content area features a large banner with the text 'Nutri+' and 'Enriched With Micronutrients'. Below the banner is a bulleted list of benefits: 'Improves soil structure & porosity.', 'Allows water & nutrients to penetrate into the root system.', 'Helps in reclaiming the alkaline soil', 'Can be easily broadcasted in the field', and 'Can be applied at any stage of farming'. The bottom of the page shows a Windows taskbar with various icons and a system tray indicating the date and time as 4/10/2021 at 4:43 AM.

The screenshot shows the search results page of the AgroBazaar website. The top navigation bar is identical to the homepage. The main content area displays a heading 'Search Results' and a breadcrumb trail 'Home / search results'. Below this, there are three product cards: 1) 'GCI Agro - Gardening Tools Set of 3 Wooden Garden Tools (Shovel Rake - Spade Trowel)' with an image of three wooden-handled tools. 2) 'Agriculture Tools Set' with an image of various agricultural tools including a trowel, a rake, a scissor, and a pink box. 3) 'Brass Spray Misting Nozzle Sprinklers' with an image of brass-colored misting nozzles and a small inset image showing them spraying water on plants. The bottom of the page shows a Windows taskbar with various icons and a system tray indicating the date and time as 4/10/2021 at 4:43 AM.

The screenshot shows a web browser window with two tabs: 'AgroBazaar' and 'Select user to change | AGRO BAZAAR'. The main content area displays the 'AGROBAZAAR' logo at the top, followed by a navigation bar with links for HOME, CATEGORIES, MAIN MENU, BLOG, WELCOME, ABHIJIT, LOGOUT, MY WISHLIST (3), and CHANGE PASSWORD. Below the navigation is a decorative graphic featuring hexagonal icons representing agricultural elements like a tractor, a drone, a sun, a water drop, and a wheat stalk, overlaid on a background of a green field. To the right of the graphic, a section titled 'About This Website' contains text about the website's purpose and contact information.

The screenshot shows a web browser window with two tabs: 'AgroBazaar' and 'Select user to change | AGRO BAZAAR'. The main content area features a large yellow banner with the word 'FAQ' in white and three speech bubble icons. Below the banner, the heading 'Frequently Asked Questions' is displayed, along with a breadcrumb trail 'Home / faq'. A list of frequently asked questions is shown, each with a brief answer:

- Can I pay Cash on Delivery?**
Currently, the cash on Delivery facility is not available
- Can I use my bank's Internet Banking feature to make a payment?**
Yes you can pay from your bank account choosing the option of Net Banking facility on the payment gateway.
- How do I know my order has been confirmed?**
Once your payment is successful, you will get confirmation through e-mail.
- What is the estimated delivery time?**
Order shall be delivered within 5-7 working days from the date of placement of order. If order placed on Monday, the order shall be delivered by Saturday.
- What are the delivery charges against my order?**
Currently, there is NO delivery charge. Your items will be delivered free of cost.
- Can I return my order after I received the order?**
Fertilisers/Micro-Nutrients/Sagarika/Agro Chemicals: Once the items are accepted, no returns are accepted.

The screenshot shows a web browser window for 'AgroBazaar' at 'localhost:8000/address/'. The top navigation bar includes links for 'HOME', 'CATEGORIES', 'MAIN MENU', 'BLOG', 'WELCOME, ABHIJIT', 'LOGOUT', 'MY CART (3)', 'MY WISHLIST (3)', and 'CHANGE PASSWORD'. Below the navigation is a 'Dashboard' section with a breadcrumb trail: 'Home / my account'. A tab bar at the bottom of the dashboard has three buttons: 'Orders' (white), 'Address' (black, selected), and 'Profile Details' (white). The main content area displays a table with profile information:

Name	Address	Country	Phone
abhijit	A - 23, Sagar Apartment, Naroda, Ahmedabad	India	7894561230

Below the table are social media sharing icons (Facebook, Google+, Twitter, LinkedIn) and a Windows taskbar at the bottom.

The screenshot shows a web browser window for 'AgroBazaar' at 'localhost:8000/profile_details/'. The top navigation bar and dashboard structure are identical to the previous screenshot. The 'Address' tab is selected in the dashboard's tab bar. The main content area displays a user profile with a placeholder profile picture and the following details:

Name:	abhijit
Email:	abhijitnair2470@gmail.com
Phone:	7894561230
Address:	A - 23, Sagar Apartment, Naroda, Ahmedabad

At the bottom of the profile section is a 'EDIT PROFILE' button. The Windows taskbar at the bottom is identical to the one in the previous screenshot.

The screenshot shows the homepage of the AgroBazaar website. At the top, there's a navigation bar with links for 'HOME', 'CATEGORIES', 'MAIN MENU', 'BLOG', 'WELCOME, ABHIJIT', 'LOGOUT', 'MY WISHLIST (3)', and 'CHANGE PASSWORD'. Below the navigation is a sidebar with categories: SEEDS, FUNGICIDE, HERBICIDE, GROWTH PROMOTERS on the left, and INSECTICIDE, BIO PROTECTION, BIO FERTILIZER, AGRO TOOLS on the right. The main content area features a large image of a fertilizer bag with the word 'ronutrients' on it. To the left of the image is a list of benefits:

- Improves soil structure & porosity.
- Allows water & nutrients to penetrate into the root system.
- Helps in reclaiming the alkaline soil
- Can be easily broadcasted in the field
- Can be applied at any stage of farming

The screenshot shows the login page of the AgroBazaar website. The header 'AGROBAZAAR' is visible, along with a search bar. The main content area has a 'WELCOME BACK' message and two input fields for 'Email' and 'Password'. A 'LOGIN' button is centered below the fields. At the bottom of the form, there are links for 'Create New Account' and 'Forgot your password?'. The page is contained within a light gray box.

A screenshot of a web browser window showing the AgroBazaar website. The title bar says "AgroBazaar" and "localhost:8000/forgot_password/". The main content area has a header "AGROBAZAAR". Below it is a form with an input field containing "abhitnair2470@gmail.com" and a "SEND OTP" button. At the bottom of the page, there are social media icons (Facebook, Instagram, Twitter, Pinterest), navigation links ("CONTACT US", "ABOUT US", "FAQ"), and a status bar showing system icons and the time "4:52 AM 4/10/2021".

A screenshot of a web browser window showing the AgroBazaar website. The title bar says "AgroBazaar" and "localhost:8000/enter_email/". The main content area has a header "AGROBAZAAR". The form fields are labeled 'Old Password', 'New Password', and 'Confirm New Password'. A 'CHANGE PASSWORD' button is at the bottom. The Windows taskbar at the bottom shows various icons and the date/time '4/17/2021 6:19 AM'.

The screenshot shows a browser window for 'AgroBazaar' at 'localhost:8000/contact/'. The page title is 'Contact Us'. The contact form has fields for 'Name' (filled with 'piyush') and 'Email' (filled with 'piyushramanuj1911@gmail.com'). A validation message in a yellow box says 'Please include an '@' in the email address. 'piyushramanuj1911@gmail.com' is missing an '@''. Below the form is a message area and a 'SUBMIT' button. To the right is a map of London with several location markers. At the bottom are social media sharing icons for Facebook, Twitter, LinkedIn, Google+, and Email. The Windows taskbar at the bottom shows various icons and the date/time '4/17/2021 6:23 AM'.

Chapter 7: - Summary

7.1 Assumptions:

- Once user logging into the system then they can feedback to us regarding the product.
- The system must be able to respond to database software on time.

7.2 Limitations:

- If the user not able to understand the English language, then user might be not able to use the system efficiently.
- The product can be add, delete and update only admin side.
- The users only able to view all the products and purchase it as well as give their own feedback.

7.3 Future Scope:

- Showing live tracking of the particular order.
- User should be given chances to get better service than every time.
- System can be made for the users who live in the other country.

7.4 Conclusion:

- This is to conclude that the project that I undertook was worked upon with a sincere effort.
- Most of the requirements have been fulfilled up to the mark and the requirements which have been remaining can be completed with a short extension.
